TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java
Frontend: ReactJS, NextJS, Redux, Tailwind
Backend: NodeJs, ExpressJS, SpringBoot, SpringSecurity, WebSockets, SocketIO.
Database: SQL, MongoDB, Redis, PostgreSQL

EXPERIENCE

Intern at Cognizant **January 2026 - Present**

Role - Java FullStack Developer *Chennai, India*

- Developed **IAM module** with secure **RBAC**, multi-role permissions, and workflow-linked access controls.
- Built complete Invoice Payment lifecycle (**create → validate → approve → pay**) with budget checks, duplicate detection, and audit trails.
- Integrated microservices using Feign **Client + Eureka**, implemented idempotent payment APIs, and improved inter-service reliability.

Intern at Textr AI **October 2024 - February 2025**

Role - Full Stack Developer *Remote*

- Reduced initial bundle size by 42% through **code splitting lazy loading**, cutting page load times from and boosting Lighthouse score from **75 → 92**.
- Integrated **Google Search Console API**, enabling real-time SEO metrics (clicks, impressions) and improving reporting accuracy for **500+ tracked pages**.
- Built an **AI-driven content generator** using GPT models and delivered production-ready SEO analytics features leveraging **FastAPI (backend)** and **React.js (frontend)**, significantly improving customer engagement metrics.

Intern at Eastri **July 2025 - September 2025**

Role - Backend Developer *Remote*

- Developed a **Chatbot Service** for customer support, handling 60%+ of FAQs automatically, improving response time and reducing manual support load.
- Integrated Payment Service with multiple gateways, enabling secure transactions **RazorPay.**

PROJECTS

PaySync – NPM package (300+ Downloads) | Node JS, NPM, Stripe, Razorpay, PayPal, CI-CD **2025**

- Designed a robust **Payment Interface** for seamless integration with multiple payment providers like **Stripe**, **RazorPay**, **Paypal** through a single interface.
- Enabled effortless switching between payment providers with minimal code changes.
- Streamlined integration process with well-documented methods and examples, enhancing developer experience.
- Extensible: Easily extendable to accommodate new payment providers, ensuring scalability and future-proofing the system.

AgentFlowAI | NextJS, NodeJS, LangChain, PostgreSQL, OpenAI, Redis, RAG, React Flow **2025**

- Architected a **multi-agent AI orchestration system (Planner → Executor → Validator)** with real-time **SSE streaming**, enabling step-by-step execution visibility and eliminating polling overhead.
- **Designed and implemented a production-grade RAG pipeline** (document ingestion, embeddings, vector search), improving response relevance and contextual accuracy.
- **Built a dynamic tool-calling framework** enabling AI agents to interact with external APIs and databases autonomously.
- **Implemented a live observability** dashboard tracking token usage, avg latency, per-model cost breakdown.

BeatFlowAI | Typescript, NextJS, Prisma, PostgreSQL, NeonDB, zod, tailwindcss, AWS, S3, Python **2025**

- Built an end-to-end **AI music generation** platform allowing users to create songs from text prompts, lyrics, or descriptions with genre control.
- Designed scalable cloud infrastructure with **Modal (L40S GPUs)** for model serving and **AWS S3** for storage, integrating Qwen2 LLM for intelligent lyrics and prompt generation.
- Implemented a **multi-mode pipeline**: (1) Description → Music, (2) Lyrics → Music, (3) AI-Generated Lyrics, with Stable Diffusion-based thumbnail creation and genre classification.

EDUCATION

Haldia Institute of Technology, Haldia **2022 – 2026**

*B.Tech - Computer Science and Engineering - **CGPA - 9.20*** *Haldia, West Bengal*

ACHIEVEMENTS

Published NPM Package: Created PaySync, a **payment integration** package with 300+ downloads.
Freelancign: Delivered a **full-stack SaaS App(MultiQR)** for an **international client** and developed a custom **CRM project**.
Hackathons: Ranked in Top **3% among 20K** participants in **HackWithInfy** coding challenge.
Contributions: Actively contributed to **open-source** projects, worked with 3 clients.
