Security Incident Action & Contact Card

Report a Security Incident 24x7:

For immediate emergency assistance, call:

India : 112 **U.S. : 911** **UK : 999**

Toll-free numbers (Option 0):

India : 1800-572-0473 **U.S. : 1-866-822-2024**

UK : 0800-678-1616

For calling options at other Cognizant locations, please refer to the next page

Email: CorporateSecurity@cognizant.com

Online: MyService Portal > All Catalogs > Service Catalog > Security > Global Business Resilience > Corporate Security Incident System (CSIS) (https://ctsccprod.service-now.com/ss?id=sc_cat_item&sys_id=6c351b01db35ec94305c215fd396198d)

To report suspected phishing: Select the message and click the **Report Phishing button** in Outlook

Security Actions for Compromised System/Credentials:

- **Keep calm and do not click** on any links or download any files from unusual messages or prompts you receive on screen.
- **Disconnect the network/Wi-Fi connection** and shut down the system. Press and hold the power button to force shut down if necessary. Disconnect the battery if possible.
- **Immediately report** the event to Corporate Security using another device – do not use the compromised system.
- **Change your password** immediately using an alternate device by accessing: https://passwordreset.microsoftonline.com.
- **Plan, prepare and print** this card or download and keep it handy so that you can access it even when you cannot access your Cognizant computer.
